

COMPANY OVERVIEW

Amazon Hose & Rubber Company is a stocking distributor of diverse hoses, hose accessories and sheet rubber. Our best-in-class products include hydraulic hoses and fittings, petrochemical hoses, in addition to a wide variety of other hoses, valves, fittings and die cut gaskets. Founded in 1919, this privately held company has established four Florida locations in Orlando, Tampa and Miami. Product lines include Continental ContiTech, Eaton, Dixon, Stucchi and Kuriyama, among many others. We are equipped and ready to handle any size request. All of Amazon Hose orders are checked five times for quality control and shipped out promptly.

CAPABILITIES

Amazon Hose & Rubber Company is proud to serve Federal, State and Local governments, including municipalities. We also work with government sub-contractors nationwide. Amazon Hose is registered with WAWF (Wide Area Work-Flow) and SAM (Systems Award Management) as CAGE (Commercial and Government Entity) code **1CU65**. Amazon Hose provides products for a variety of applications including construction, dewatering, wastewater treatment, equipment and vehicle maintenance. We focus on industrial and heavy equipment hoses, and have a knowledgeable team that can align your needs with the proper hoses for your specific applications. We can quickly provide bulk hose and hose assemblies that meet your specific standards. Amazon Hose has four warehouses totaling 127,000 square feet of inventory and production space. If your product is not in stock, we will special order and have it drop-shipped for efficient turnaround time.

KEY PRODUCTS

Hydraulics, Industrial, Heavy Equipment and Automotive, Fittings/Valves, Custom hose assemblies and kits are our specialty.

KEY DIFFERENTIATORS

Amazon Hose & Rubber Company is an Original Equipment Manufacturing company (OEM) that offers testing facilities and expert certification of hoses. We have invested heavily in state-of-the-art equipment to provide specialty services including 10” crimpers, hydraulic hose repair, etched hose label certifications, and custom hose assemblies. We are able to handle any size request due to our extensive inventory of standard and hard to find parts between our four massive warehouses.

Our hose technicians have an average of 10-years experience in this industry. We are classified as a Woman Owned Business and Small Business, helping you meet your minority and diversity goals.
